1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Henry Bartony on 1/30/06.

The application has been amended as follows:

1) Claims 11-31, drawn to the non elected invention, have been canceled, without prejudice.

2. The following is an examiner's statement of reasons for allowance: The closest prior arts are US 5,059,713 and US 4,942,259, both of which teach similar process of making N-vinyl amides, see for example claims of both the patents. However, the references differ from the claimed process in that none of the references suggest reactant to be a salt of N-vinylformamide. There is no motivation to arrive at the claimed process using the prior art processes, as none of the references suggest starting material, salt of the amide.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
